

INFORMATION - COMMUNIQUÉ

For Immediate Release- July 24, 2007

ADULT NUISANCE MOSQUITO FOGGING PROGRAM WILL NOT OCCUR TONIGHT DUE TO LOW OVERALL ADULT MOSQUITO ACTIVITY AT THIS TIME

Winnipeg, MB – The City of Winnipeg’s Adult Nuisance Mosquito fogging program will not occur tonight, July 24, 2007 due to low overall mosquito activity. The city wide average trap count for today; July 24, 2007 is 57.

All factors of the AFA, including trap counts will continue to be monitored on a daily basis. The AFA remains at high. Fogging will resume when trap counts are in the range of 100 in one or more quadrants of the city. An 8 hour Public Service Announcement will be issued prior to resuming the Adult Nuisance Mosquito Fogging Program. If and when the fogging program is to resume, it will be carried out in the entire city (buffer zones respected), continuing to prioritize first for areas with highest nuisance mosquito populations.

The City’s extensive larviciding and residual treatment programs will continue throughout the City.

Residents are reminded that, if they wish to have their primary residence excluded from the adult nuisance mosquito fogging program, they can register in writing by contacting the Insect Control Branch at 3 Grey Street, Winnipeg, MB, R2L 1V2, online at winnipeg.ca/bugline, or by fax at 986-4868. Visit our website for more information on how to register for buffer zones. Please allow up to 72 hours for processing.
