

INFORMATION - COMMUNIQUÉ

For Immediate Release- June 28, 2007

CITY OF WINNIPEG FOGGING PROGRAM INTERRUPTED BY COOLER OVERNIGHT TEMPERATURES

PROGRAM TO RESUME THIS EVENING

Due to cooler overnight temperatures, the City of Winnipeg was not able to complete all the scheduled areas for Adult Nuisance Mosquito fogging for June 27, 2007. Insect Management Areas 1, 4, 5, 9, 11, 13 and 14 were fully completed. Only portions of the remaining Insect Management Areas were completed. These remaining areas are scheduled to be completed tonight, weather permitting.

Fogging cannot occur when temperatures are below 13 ° Celsius, if there is significant precipitation, and/or wind speeds are not conducive for fogging.

Tonight, weather permitting the Insect Control Branch will resume its Adult Nuisance Mosquito Fogging Program for the entire city beginning at 9:30 pm. Until further notice, fogging will continue on a daily basis between the hours of 9:30 p.m. and 6:30 a.m., weather permitting.

Tonight, June 28, 2007, crews will continue treatment in Insect Management Areas 2, 3, 6, 7, 8, 27, 28, 29, 39, 43 and 44. Upon completion of these areas crews will begin treatment in Insect Management Areas 34, 35, 36, 38, 39, 48, 49 and 51 as well as St-Vital Park and Kildonan Park

Insect Management Area	Neighbourhoods
Insect Management Areas to be completed from June 27 scheduled fogging program	
2	Kildonan Drive, Rossmere A
3	Eaglemere, Grassie, McLeod Industrial, North Transcona Yards, Springfield South, Valley Gardens

49	Garden City, Leila - McPhillips Triangle, Margaret Park, Templeton - Sinclair
51	Amber Trails, Leila North, Riverbend, Rivergrove, Rosser - Old Kildonan, West Kildonan Industrial
Parks	St-Vital Park and Kildonan Park

All buffer zones will be respected. Crews will ensure that the insecticide sprayer is turned off 100 meters on each side of a registered property on the front street, side street, and rear lane. (Please note that although the sprayer has been turned off the sound of the sprayer's engine will continue to be heard.) Residents who wish to have their primary residence excluded from the fogging program can register in writing to the Insect Control Branch at 3 Grey Street, Winnipeg, MB, R2L 1V2, online at winnipeg.ca/bugline or by fax at 986-4868. Visit our website for more information on how to register for buffer zones. Please allow up to 72 hours for processing.

For information on where City crews will be fogging, citizens are encouraged to visit the website at winnipeg.ca/bugline or call the Bugline at 986-3210. A Public Service Announcement will be issued daily, providing a minimum of eight (8) hours advanced notification, to advise citizens as to where fogging operations will specifically be occurring on that given night, weather permitting.

The insecticide Malathion for ultra low volume (ULV) applications will be used. This insecticide has been approved for use in Canada by Health Canada's - Pest Management Regulatory Agency (PMRA). Malathion will be used in accordance with federally-approved label directions by licensed pesticide applicators.

Information on all fogging activities will be provided by referencing the specific Insect Management Area in which they are being carried out. All Winnipeg neighbourhoods have been grouped into 51 Insect Management Areas.

One way of finding out your Insect Management Area is to go the website at winnipeg.ca/bugline. Or you can call our Insect Control's Bugline at 986-3210. Residents will now be able to type in their address and click on "Find your insect management area" to find out what Insect Management Area they reside.

Copies of this map, including buffer zone registration forms, are in the back of the 2007 MTS White Pages. They are also available at your local library.

The City's extensive larviciding and residual treatment programs will continue throughout the City in conjunction with the fogging program.
