

CITY OF WINNIPEG
PUBLIC WORKS DEPARTMENT

INSECT CONTROL BRANCH

PUBLIC NOTICE INSECTICIDE USE

Notice is hereby given that the City of Winnipeg's Insect Control Branch intends to control for structural pests, as necessary, in various public properties using the insecticides bendiocarb, permethrin, and hydramethylnon.

The projected dates of application are January 1, 2012 to December 31, 2012. All pesticides used and procedures applied will be in accordance with federally approved label recommendations from the Pest Management Regulatory Agency, Health Canada and the recommendations set by Manitoba Conservation.

The public may send written submissions within 15 days of the publication of this notice to Manitoba Conservation, Suite 160, 123 Main Street, Winnipeg, Manitoba, R3C 1A5.
