PART E – SPECIFICATIONS

Add: **E18.**

PRESERVATION OF CATHODIC PROTECTION

E18.1

The watermains on the following streets have cathodic protection:

- i) Rosedale Avenue – Nassau Street to Osborne Street
- ii) Yale Avenue – Wilton Street to Guelph Street

Anodes and monitoring stations for cathodic protection are located in the boulevard on these streets. It is the Contractor's responsibility to protect the cathodic protection anodes and monitoring stations from damage during construction. In the event that the cathodic protection is damaged as a result of the Contractor's activity on site the Contractor shall be responsible for the costs of repair or replacement at the determination of the Contract Administrator.
