B9. PRICE ADJUSTMENT MECHANISM

General

- B9.1 The Bidder may submit a bid on the basis of:

- (a) Option 1 Price Indexed to Crude Oil Price;
- (b) Option 2 Price Indexed to Product Price;
- (c) Option 3 - Bidder's Proposed Price Adjustment Mechanism.

B9.2 The Bidder is advised that, if he is submitting bids on the basis of more than one option, to clearly identify both Form B: Prices and Form N: Price Adjustment Mechanism (or an attachment describing the Bidder's proposed price adjustment mechanism) for each option.

B9.3 The Bidder shall be prepared to submit, within three (3) Business Days of a request by the Contract Administrator, a written record of the proposed indices for at least the most recent thirty-six (36) month period available.

Option 1 - Price Indexed to Crude Oil Price

B9.4 If the Bidder is submitting a bid based on Option 1 - Price Indexed to Crude Oil Price, he shall complete Form N: Price Adjustment Mechanism – Option 1 - Price Indexed to Crude Oil Price.

B9.5 Effective the first Calendar Day of each month, the fuel price component of each Total Unit Price shall be increased or decreased by one ten-thousandth of a dollar per litre (\$0.0001/L) for each tenth of a dollar per cubic metre (\$0.10/m³) increase or decrease in the weighted average crude oil price for the index identified by the Bidder on Form N: Price Adjustment Mechanism – Option 1 - Price Indexed to Crude Oil Price (e.g., if the September price is based on the weighted average crude oil price for the month of July, the fuel price adjustment for October would be calculated from the change in weighted average crude oil price from the month of July to the month of August).

B9.6 In addition to any increase or decrease pursuant to B9.5, the fuel price component of each Total Unit Price shall be increased or decreased by the amount of any applicable Other Price Adjustments identified by the Bidder on Form N: Price Adjustment Mechanism – Option 1 - Price Indexed to Crude Oil Price.

B9.6.1 If no such price adjustments are identified, it will be interpreted that the Bidder proposes that no adjustments are applicable.

B9.6.2 If it is not clearly identified whether a price adjustment is an increase or a decrease, it will be interpreted that the Bidder proposes the adjustment as an increase.

B9.7 Unless otherwise stipulated by the Bidder in the Bid Submission, all calculations shall be rounded to the nearest one ten-thousandth of a dollar per litre (\$0.0001/L).

Option 2 - Price Indexed to Product Price

B9.8 If the Bidder is submitting a bid based on Option 2 - Price Indexed to Product Price, he shall complete Form N: Price Adjustment Mechanism – Option 2 - Price Indexed to Product Price.

B9.9 Effective the first Calendar Day of each month, the fuel price component of each Total Unit Price shall be increased or decreased by one ten-thousandth of a dollar per litre (\$0.0001/L) for each one ten-thousandth of a dollar per litre (\$0.0001/L) increase or decrease in the reference price for the index identified by the Bidder on Form N: Price Adjustment Mechanism – Option 2 - Price Indexed to Product Price (e.g., if the September price is based on the weighted average reference price for the period of July 25 - August 24, the fuel price adjustment for October would be calculated from the change in weighted average reference price from the period of July 25 - August 24 to the period of August 25 - September 24).

B9.10 In addition to any increase or decrease pursuant to B9.9, the fuel price component of each Total Unit Price shall be increased or decreased by the amount of any applicable Other Price Adjustments identified by the Bidder on Form N: Price Adjustment Mechanism – Option 2 - Price Indexed to Product Price.

B9.10.1 If no such price adjustments are identified, it will be interpreted that the Bidder proposes that no adjustments are applicable.

B9.10.2 If it is not clearly identified whether a price adjustment is an increase or a decrease, it will be interpreted that the Bidder proposes the adjustment as an increase.

B9.11 Unless otherwise stipulated by the Bidder in the Bid Submission, all calculations shall be rounded to the nearest one ten-thousandth of a dollar per litre (\$0.0001/L).

Option 3 – Bidder’s Proposed Price Adjustment Mechanism

B9.12 Notwithstanding B5, the Bidder may submit a bid based on an alternative price adjustment mechanism without applying for approval of the substitute and without submitting a bid based on one of the price adjustment mechanisms specified above.

B9.12.1 The Bidder may use Option 3 to supplement a bid based on Option 1 or Option 2 with a price adjustment mechanism for delivery costs.

B9.13 Alternative price adjustment mechanisms must:

- (a) be based on indices which are directly related to the cost of production and transportation, or the fair market price, of the subject fuel(s);
- (b) be based on indices which can be verified through independent sources (i.e., published or posted publicly);
- (c) result in not more than one adjustment per month to the fuel price component of the Total Unit Price;
- (d) result in price adjustments occurring on a regular periodic basis;
- (e) provide notice to the Contract Administrator at least two (2) Business Days prior to the effective date of each price adjustment; and
- (f) be determinable, i.e., conditions such as "to be determined" or "to be negotiated" will be deemed non-responsive.

B9.14 If the Bidder is submitting a bid based on Option 3 - Bidder’s Proposed Price Adjustment Mechanism, he shall submit with his bid an attachment clearly describing the proposed price adjustment mechanism.

B9.14.1 The description of the proposed price adjustment mechanism must contain information comparable in detail to Options 1 and 2, including but not limited to:

- (a) identification of the indices and the data sources;
- (b) the values and dates of the indices used to calculate each fuel price component on Form B: Prices;
- (c) a clear description of the calculation method; and
- (d) a sample calculation of a price adjustment.

B9.14.2 If, due to the nature of an alternative price adjustment mechanism, the proposed price adjustments would not take effect on the first Calendar Day of a month, the Bidder shall identify the dates for which the bid prices would be in effect, e.g., "bid prices on Form B: Prices for September 1 are based on prices in effect from August 5 to September 4, 2005".

B9.15 Unless otherwise stipulated by the Bidder in the Bid Submission, all calculations shall be rounded to the nearest one ten-thousandth of a dollar per litre (\$0.0001/L).
