## **Residents invited to provide input on where and how infill housing should be accommodated in mature communities**

**Winnipeg, MB** – Building on the priorities identified in the Residential Infill Strategy's Implementation Action Plan, the City of Winnipeg is seeking public input on residential infill design guidelines and intensification criteria to help ensure that new development in Mature Communities is compatible in form, scale, and design, and to help determine when and where density changes should occur on residential streets.

The overall objective of this project is to advance a vision for residential infill development within our mature communities that helps address the demand for new housing while enhancing existing neighbourhood quality, character, and livability.

Residents can provide their input through our [online survey](#), open until October 10, 2019 or at any of the following public open houses:
