#### Note:

- Permits for new single-family and two-family dwellings, detached secondary suites and additions, the number of inspections included in a project would be 7 (3 for building, 2 for plumbing, and 2 for electrical if applicable to the construction project). Since most of the required inspection points can be combined to include more than one permit, the inspections can be 'transferred' between permits on these projects. However, for many interior renovation projects or accessory structure (external to the house) projects which might include more than one permit (e.g. a garage with a building and electrical permit), the inspections would not be transferable because each electrical or plumbing contractor will typically call for inspections independently.
- There are two inspections in total per flood proofing permit package.

## 10. REFUNDS, DISCOUNTS AND FEES FOR NON-COMPLIANCE

### 10.1. REFUNDS

#### Refund Calculations for construction related permits

Review Stage	Refund as % of Total Permit Fees*	Minimum Fee Retained by the City		Maximum Fee Retained by the City
		Housing permits	Commercial permits	
Prior to Plan Review (pre, during or post screening)	90%	\$55	\$111	\$1095

Permit Approved but not yet issued	50%	\$110 or the total permit fee, whichever is less	\$327 or the total permit fee, whichever is less	No maximum. In cases where the 50% of the permit fee to be retained by the City is greater than the \$100k maximum paid at the time of application, the applicant would owe the remainder to the City.
Permit Issued but construction not initiated	40%	\$110 or the total permit fee, whichever is less	\$327 or the total permit fee, whichever is less	N/A

#### Refund Calculations for development and zoning-related applications (including variances, conditional uses, re-zonings)

#### Notes:

- The calculation for refund in the event of a staged permit would be based on the total collected to that application point. The staged permit premium would not be refunded.
- Percentage of total fees refundable when fees and charges paid are \$100 or more and the applicant withdraws an application for an electrical, mechanical, or plumbing permit is 50%.

10.2. DISCOUNTS AND REBATES
