## CITY OF WINNIPEG CONSTRUCTION NOTICE

**TO: Residents and Businesses on Taylor Avenue**  
**RE: 2020-2023 Corydon/Stafford/Taylor Pavement Renewals Program – Taylor Avenue**

Please be advised the reconstruction of Taylor Avenue between Wilton Street and Harrow Street is scheduled to begin on April 26, 2021.

Construction Start: April 26, 2021  
Duration: To be complete by late September 2021  
Traffic Implications: Traffic will be reduced to one lane in each direction between Wilton and Harrow

The work includes a complete roadway and sidewalk reconstruction with associated drainage improvements, and sewer repairs, new streetlighting and replacing and improving traffic signals. The road and sidewalks will be removed and excavated and a new pavement structure will be constructed. A new multi use path will be constructed along the south side of Taylor. Landscaping will be completed to tie existing properties into the new construction.

Throughout construction, traffic will be restricted to one lane in each direction between Wilton and Harrow. There will be no access onto and off of Taylor at Guelph Street and on street parking will temporarily be removed as required by the stage of construction. Garbage and recycling pickup will remain unchanged.

Pedestrian access to residences and businesses will be maintained throughout construction. Transit service will be maintained although some stops may be temporarily relocated or closed for short periods of time during construction.

The work will be completed in multiple stages which will require several traffic control configurations. Closure of side streets and approaches will be required at different times during construction; however, we will make every effort to minimize impacts to traffic and pedestrians. Closures of private approaches will be discussed with the affected business/resident prior to.

If you have accessibility concerns, special access requirements, or any other questions regarding this construction, please contact Derek Wiebe C.E.T. at (204) 292-6415 or by email at [Derek.Wiebe@Stantec.com](mailto:Derek.Wiebe@Stantec.com)

Sincerely,

**Scott Suderman, C.E.T., P.Eng**
