Cankermom Control Program Continues in Areas throughout the City

On Monday, June 9, 2008, weather permitting; the City of Winnipeg's Insect Control Branch will continue its cankerworm control program in areas throughout the City focusing on heavily foliated areas that are at risk of significant leaf damage.

Starting at 10:00 p.m. on Monday, June 9, 2008 crews will continue treatment in Insect Management Areas 2, 4 and 5. This includes the following neighbourhoods:

Insect Management Areas	Neighborhoods
2	Kildonan Drive, Rossmere A
4	Munroe West, Rossmere B
5	Chalmers, Glenelm

Please refer to the back of the 2008 MTS white pages or visit our website at Winnipeg.ca/bugline for a map of the Insect Management Areas.

Spraying will occur five nights per week, Sunday to Thursday from 10:00 p.m. – 6:00 a.m., weather permitting. Spraying will not occur if there is significant rainfall or winds are greater than 20 km/h.

Treatment will be conducted utilizing BTK, a biological product, which is sprayed from high pressure tree sprayers directly onto the foliage of the trees located in City parks and on City boulevards. This product has been approved for use in Canada by Health Canada's Pest Management Regulatory Agency, and will be used in accordance with federally approved labeled directions by licensed pesticide applicators.

Citizens may register for a 30m buffer zone if they do not wish spraying to be carried out on or adjacent to their property. Citizens may register by contacting the Insect Control Branch in writing at 3 Grey Street, Winnipeg, MB, R2L 1V2, or by fax at 986-4868 or by registering on line at Winnipeg.ca/bugline.

Citizens may register for email notification regarding planned tree spraying by visiting our website at Winnipeg.ca/bugline. They can also register for telephone notification by calling the Insect Control Branch's Bugline at 986-3210 and leaving their name, address and phone number. Once registered, residents will receive automated phone or email notification identifying the area(s) of the City in which the Insect Control Crews are intending to work, weather permitting.

Interested individuals may acquire more information by contacting the City's Bugline at 986-3210, Monday to Friday from 8:30 a.m. to 4:30 p.m., or by visiting the City's Insect Control website at Winnipeg.ca/bugline.
