Adult Nuisance Mosquito Fogging Bulletin #23

For Immediate Release
Thursday, September 3, 2015

Adult Nuisance Mosquito Fogging Program Concludes

Winnipeg, MB – Today, September 3, 2015, the City's Insect Control Branch is concluding its adult nuisance mosquito fogging program. The city wide average adult mosquito trap count for today, September 3, 2015, is 8. All quadrants are substantially below 100.

With the forecasted cool temperatures over the next 10 days, adult mosquito activity will be depressed.

Adulticiding Factor Analysis (AFA) lowered to medium

The AFA is lowered to medium. All factors of the AFA, including trap counts will continue to be monitored.

Larviciding and residual treatments

The Insect Control Branch's larviciding and residual treatment programs will continue throughout the city.
