Elm Bark Beetle Bulletin #3

For Immediate Release
Friday, July 17, 2015

Elm Bark Beetle Control Program continues

Winnipeg, MB – The Public Works Department’s Insect Control Branch is continuing the Elm Bark Beetle Control Program - **weather permitting**. The program is intended to control elm bark beetles, the carriers of Dutch Elm Disease (DED).

The Elm Bark Beetle Control Program will continue on July 20, 2015 in Insect Management Areas 47 and 50 in the following neighbourhoods: Inkster - Faraday, Luxton, St. John's, St. John's Park, Jefferson, Kildonan Park, and Seven Oaks - **weather permitting**.

Weekly public service announcements will be issued on Fridays throughout the program indicating which Insect Management Areas will be treated the following week.

Treatment will occur between the hours of 5:30 a.m. and 4:30 p.m. Monday to Friday, weather permitting. Treatment will occur on an ongoing basis until fall.

Treatment will be conducted using Pyrate 480 EC® (Chlorpyrifos), a chemical product, which is sprayed from portable sprayers directly onto the lower 50 centimetres of the tree trunk. This product has been approved for use in Canada by Health Canada’s Pest Management Regulatory Agency, and will be used in accordance with federally approved label directions by licensed pesticide applicators.

Phone and email notification
