## Phase 3: Immediate Solutions – Fort Rouge Yards Construction Access

Background:

- Residents are concerned with truck traffic on local residential streets as a result of ongoing construction at the Fort Rouge Yards development site.
- The City of Winnipeg Traffic By-Law regulates where trucks are permitted to travel. Based on this by-law, trucks accessing Fort Rouge Yards from Osborne Street are legally required to use one of the east-west local residential streets because it is the shortest route.

## Phase 3: Immediate Solutions – Fort Rouge Yards Construction Access

Solution:

- Temporary exemption to the Traffic By-law to allow trucks accessing Fort Rouge Yards development to use Jubilee Avenue instead of local residential streets.
- Subject to Council approval.
- If approved, signs will be installed directing trucks accessing the Fort Rouge Yards development to use Jubilee.
- **The exemption would only apply to trucks associated with construction activity at the Fort Rouge Yards development.**
