Report Summary

Key Issues:

- The City of Winnipeg's Sponsorship Policy provides public-spirited individuals, businesses, corporations, foundations, and community groups with the opportunity to sponsor the delivery of services to the public.
- Sponsorships are used by a variety of cities across North America and the City of Winnipeg's policy is consistent with the approach used in other jurisdictions.
- A sponsorship is defined as a mutually beneficial business transaction in which an individual, business, corporation, foundation, and community group provides cash and/or in-kind services (or a combination thereof) to the City in return for access to the commercial marketing potential and other potential benefits associated with the City service.
- This policy does not apply to advertising opportunities sold by the City as there are already guidelines in place for departments such as Community Services and Public Transit. It is recommended that the Public Service be directed to develop a corporate advertising policy that is consistent with the previously approved guidelines.
- The Sponsorship Policy applies to all City programs (including equipment), services, projects, facilities, parks and park facilities, events or activities to ensure broadest possible appeal of the program.
- The Sponsorship policy is governed by the principles of Transparency, Integrity, Business Case, and Effectiveness.
- The City will invite potential sponsors through a Request for Sponsorship (RFS) process.

Report

REASON FOR THE REPORT:

The proposed City of Winnipeg Sponsorship Policy requires Council approval.

HISTORY:

For several years the City has received a variety of requests from businesses, corporations, and community groups to sponsor civic activities as a way of contributing to the delivery of public services. From time to time the Winnipeg Public Service has explored potential policy options for sponsorships – most recently in 2002 – but no corporate policy or report has ever been filed with Council.

While no corporate policy on sponsorships has been approved, Council has allowed some City services to develop sponsorship agreements. On February 14, 2007, for example, the Chief Administrative Officer was delegated the authority to approve and execute on behalf of the City, library fundraising and sponsorship agreements, not exceeding \$50,000.00 in value (either money or gifts in kind, or combination thereof).

Council has also established guidelines on the separate matter of advertising. On June 20, 2001, for example, Council delegated authority to the Chief Administrative Officer to set fees and approve advertising at City pools, arenas, skate parks, on equipment at pools and arenas, and in the Leisure Guide.

DISCUSSION:

The City of Winnipeg Sponsorship Policy

As budgetary pressures continue to increase, the City of Winnipeg is looking for innovative new ways to generate revenue to support the delivery of public services. The City of Winnipeg's Sponsorship Policy offers an alternative approach to generating new revenue while providing public-spirited individuals, businesses, corporations, foundations, and community groups with the opportunity to sponsor the delivery of public services.

The City has been considering the benefits of a corporate sponsorship policy for at least ten years. In the absence of Council direction on this issue, the City has not fully explored the potential benefits of developing sponsorships with interested community partners. The benefits associated with the Library sponsorship policy, however, indicates that sponsorships have significant potential to contribute to the quality of life in Winnipeg by sustaining, or in many cases, enhancing the delivery of City services to our citizens.

The City of Winnipeg's Sponsorship Policy therefore is intended to fill this policy gap and to take advantage of an alternative approach to generating new revenue while providing public-spirited individuals, businesses, corporations, foundations, and community groups with the opportunity to sponsor the delivery of public services. It is worth noting that the City is following the lead set by other cities across North America. In particular the sponsorship policies adopted in Calgary, Vancouver, Ottawa, and San Diego provide excellent examples of how sponsorships can be used to enhance the delivery of public services while ensuring that sponsorships are done in a tasteful and responsible manner. The City of San Diego's Municipal Marketing Partnership Program, for example, is explicitly designed to "support the City of San Diego's goals of service to the community and remain responsive to the public's needs and values."

Like the policy models used in other cities, a sponsorship may be defined as a mutually beneficial business transaction in which an individual, business, corporation, foundation, or community group provides cash and/or in-kind services (or a combination thereof) to the City in return for access to the commercial marketing potential and other benefits associated with the City service. Typically, sponsorships are often related to the granting of naming rights to a civic facility but the City of Winnipeg's Sponsorship Policy is intended to apply to all City programs (including equipment), services, projects, events, facilities, parks and park facilities, or activities to ensure the broadest possible appeal of the policy. The key to the success of this policy will be to ensure that sponsorship opportunities provided by the City appeal to the many Winnipeg individuals, businesses, corporations, foundations, and community groups that are public spirited and who want to make a genuine contribution to the well-being of the community.

It is important to note that this policy does not apply to advertising sold by the City as there are already existing guidelines for some departments. For example, Council delegated authority to the Chief Administrative Officer on June 20, 2001 to set fees and approve advertising at City pools, arenas, and skate parks, on equipment at pools and arenas, and in the Leisure Guide. Likewise there are guidelines in place for Public Transit. It is recommended that the Public Service be directed to develop a corporate advertising policy that would apply to all civic departments and is consistent with all previously approved advertising guidelines.

Principles

To ensure that the City of Winnipeg's Sponsorship Policy meets the highest standard of public policy, it is proposed that the policy be guided by the principles of Transparency, Integrity, Business Case, and Effectiveness. These principles are designed to ensure that Sponsorships are developed for the purpose for which they are intended – to maintain and enhance the delivery of public services to the citizens of Winnipeg. The principles are defined as follows:

- **Transparency** - In an effort to ensure that the process is open, fair and competitive, the City of Winnipeg will produce an inventory of sponsorship opportunities and will invite potential sponsors through a Request for Sponsorship (RFS) process.
- **Integrity** - The policy is designed to develop sponsorships that are consistent with Plan Winnipeg's vision "To be a vibrant and healthy city which places its highest priority on quality of life for all its citizens." Sponsorships that promote excessive commercialization of public spaces or that promote activities that are illegal or unhealthy will not meet the criteria established for sponsorships.
- **Business Case** – To ensure that the financial benefits to the City are in direct proportion to the marketing opportunity afforded to the sponsor, all sponsorships must demonstrate a mutually beneficial business case for both the City and the sponsoring partner.
- **Effectiveness** - Sponsorship opportunities must be shown to be in accord with the public interest and to have measurable outcomes to promote the transparency and integrity of the process.

Process

It is recommended that the City prepare a rolling inventory of assets, programs, services, events, activities or any other notion for which a sponsorship could be developed. The inventory will need to be updated on an ongoing basis to delete sponsorship opportunities that have been filled and to add others as required.

In order to ensure that the City of Winnipeg Sponsorship Policy is open, fair and competitive, the City will utilize a Request for Sponsorship (RFS) process. The RFS will carefully identify the criteria which must be met in sponsoring City assets, facilities, programs, and activities, the conditions that are non-negotiable, and the obligations of both parties. Additional negotiation may be required with potential sponsors once proposals have been received but the RFS process should ensure that virtually all City conditions are met. All subsequent sponsorship agreements will clearly note that the City of Winnipeg reserves the right to decline or discontinue an agreement at any time if the sponsor is understood to be in violation of the agreement.

Council will approve the naming rights of a facility or asset, prior to the release of an RFS. Specifically, Council will need to approve the content of the RFS that has proposed naming rights. All other sponsorship awards require the approval of the Chief Administrative Officer (or designate).

Restrictions

The City will not enter into agreements with companies that promote the use of tobacco or the sale of alcohol to underage youth. Any proposed sponsorships which involve marketing concepts that explicitly or implicitly stereotype or otherwise denigrate individuals or groups will be considered non-responsive as well as marketing concepts that unnecessarily promote the commercialization of public space. Finally, the City would decline sponsorship proposals from parties involved in a lawsuit or otherwise debarred from doing business with the City.
